We are Indonesia's Focus Green Tech Fund

OBJECTIVE

To expedite low-carbon transformation and enhance environmental protection to encourage and support projects with a greater prospect of realization and commercialization of decarbonization and green technologies that can expedite low-carbon transformation and enhance environmental protection in Indonesia

- Facilitate the development, trial and fine-tuning of decarbonisation and green technologies
- Build up 'reference' for subsequent marketing, and to encourage wider adoption of such technologies,
- Motivate and attract more investment in innovation on decarbonisation and green technologies in Indonesia.

Jawara Ventures - Greensea Fund

Our team holds a track record of cumulatively over 20 years of experience in fund management and investments, and over 75 years of experience in the technology sector.

By leveraging this track record and experience, the Greensea Fund team will continue to focus on investing in the most promising Green Tech companies in Indonesia and continue to perform above of all of its peers.

With a deep regional understanding, we promote the introduction and diffusion of new technologies and knowledge transfer to our portfolios.
